Dear Lisa,

I would like to take this opportunity to thank you for bringing the AngioScreen to our place of employment. This has been a wonderful benefit and addition to our wellness initiative. Preventative care is the key to keeping our staff healthy and reducing high cost claims. Offering the AngioScreen is assisting us in reaching this goal.

We had 72 participants and received excellent feedback especially due to the convenience, the instant color results, and the professional, courteous and knowledgeable staff. We look forward to offering the AngioScreen again in the near future.

Sincerely,
