Dear AngioScreen,

Words cannot express my gratitude to AngioScreen. I am alive today because of your testing provided where I work. Your staff was friendly and professional. I was pleased with the entire process from the scheduling to the screening to receiving an actual picture of my arteries immediately. I am thankful that my company provided this screening for their employees. I have recommended AngioScreen to all my family and friends, and I have pointed out that the cost is affordable if they have to pay for it themselves. It would be money well spent!

Immediately after the screening, I found out that I needed surgery due to a blocked carotid artery....almost 90%. My velocity level was over 400. I learned during my consultation that the normal level is less than 125. I had no idea my arteries were blocked and I had no symptoms of a stroke. I felt fine.

I have had two routine ultrasounds since my surgery and my arteries remain clear. I am doing well, and I am very thankful to AngioScreen!

Sincerely,

A handwritten signature in black ink, appearing to read "Michael W. Neal". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Michael W. Neal
