Ms. Kathleen Culhane, COO
Angiology Corporation of America
3102 West End Avenue, Suite 175
Nashville, TN 37203

Dear Kathleen:

Wow! What a great experience! The health screenings your company provided to our employees were done in a professional and efficient manner. Your staff were friendly and courteous the entire day despite the long hours and they respected each employee's privacy. I have had many positive comments since the day of our screenings. Each person liked the report they received at the end of their screening and appreciated the consultation which included explanation of the tests and individual results. Most importantly, we had individuals who, based on their abnormal findings, were encouraged to make appointments with their physicians and they have done so. Thank you so much for helping our employees improve their health status!

Sincerely,

Bronwyn McDaniel
Human Resources Manager
