Re: Testimonial from Goodwill Industries of Middle Tennessee, Inc. about Angiology

Dear Kathleen,

Goodwill Industries was pleased with the services that Angiology Corp. provided to our employees. The onsite visits went smoothly and the staff from Angiology were efficient, friendly and knowledgeable. Because of the screenings we were able to help several employees find out that they needed to seek medical attention—this is an outcome that will help these employees get the treatment they need to live healthier lives. Overall, we are pleased with the screening experience and we would recommend Angiology Corp's services to other employers who are putting together a wellness program.

Alice Grunau  
Director of HR  
Goodwill Industries of Middle Tennessee, Inc.
